

Meet **NEW Molchem™** Coated Checkstand Belt

Helping retailers meet the cleanliness
demands of consumers.

- Each **NEW Molchem™** Coated Checkstand Belt is treated with a compound consisting of a surface hardener, liquid polyurethane and an antimicrobial agent which is EPA Registered and FDA Approved
- Highly-engineered, scratch-resistant surface featuring a **NEW** antimicrobial coating
- Hardened surface is easy to clean
- **NEW Molchem™** Coated Checkstand Belt technology allows for a more efficient cleaning process

Molchem™

Study conducted by former MSU Microbiologist Dr. Zhinong Yan found 100% of the tested checkstand belts had “high microbial population” and concluded that “more stringent sanitary practices are necessary in the retail checkstand environment”

To reorder **Molchem™** products, please contact your checkstand supplier or call 1-800-729-2358 or on-line at www.molchemclean.com

Thank you for your business!
